

The anticipated results of what they wanted to achieve and were obtained following the implementation can include: a social center for people with disabilities who work in an area adequately managed and equipped in accordance with the quality standards in 2035, disabled beneficiary social services offered at the center Christian 9 new jobs (6 full-time jobs and three part-time) - Christian Centre for the operation. Results of the provision of services (after project implementation) can include:

- Increased access to these newly created social services center;
- Improving the quality of life of the beneficiary;
- New infrastructure created for a real system of protection of persons with disabilities;
- Improving the quality of information on the rights and obligations of beneficiaries;
- Providing social services adapted to the needs of beneficiaries;
- Increasing trust people with disabilities in the social assistance system;
- Increase the satisfaction of persons covered
- Increasing the number of people who will know and be aware of the issues people with disabilities.

Another example of good practice is the indication in the application for financing functions will regăsi in the Team Project Implementation Unit (PIU), but more importantly it is stated that the work of the project management will be provided by Unit implementation of the project, set at Tg-Jiu people who have experience in project implementation. These persons involved in the project activities have made specific training so they had acquired certification attesting a range of skills in terms of project implementation programs from European funds.

One aspect that may result in an example of good practice is the one relating to the financial management of the project has been contracted as a specialized firm who had to fulfil the following conditions:

- ✓ experience in financial management of projects;
- ✓ experience working with public authorities;
- ✓ accounting system used in accordance with national legislation;
- ✓ branch in Targu Jiu;
- ✓ minimal equipment: computers, copiers, phone, fax;

Another good practice is to clear management of documents related to procurement, which should be standardized for this purpose was conceived annex related to public procurement.

In this list are given all objects investment that will be made by submitting the funding request and after submission, which will require different types of procurement procedures also are generally estimated values in lei for each object and estimated time to complete each procedure.

Conclusion

Requirements imposed by Romania's accession to the European Union represented and still represents for the social assistance system a milestone in the strengthening and structuring of institutional set-up and steps to shape an image compatible with European structures in this area in this context was necessary to establish a coherent system in which social services provided to the population by public institutions and private organizations to gain legitimacy and effectiveness in addressing social problems facing the Romanian society.

Besides, in the current context in which Romania is trying to align certain specific standards Christian Center successfully manages to value the principles underlying the development of services for people with visual, directed to the issue of equal opportunities, as follows:

- Persons with disabilities remain in the community who come and lead a normal life with help if necessary;
- These persons participate in decision-making both in the general problems of the community and in particular the specific problems of people with special needs;
- Disabled or incapacitated must receive all the assistance they need within the ordinary structures of education, health, social assistance, etc.
- They actively participate in social and economic development of the community and their needs are included in national and local plans.
